**STATEMENT OF POLICY IN TREATMENT OF  
CUSTOMER PROPRIETARY NETWORK INFORMATION**

1. It is TAG Mobile, LLC (hereafter referred to as "TAG Mobile") policy not to use CPNI for any activity other than permitted by law. Any disclosure of CPNI to other parties (such as affiliates, vendors, and agents) occurs only if it is necessary to conduct a legitimate business activity related to the services already provided by the company to the customer. If the Company is not required by law to disclose the CPNI or if the intended use does not fall within one of the carve outs, the Company will first obtain the customer's consent prior to using CPNI.
2. TAG Mobile follows industry-standard practices to prevent unauthorized access to CPNI by a person other than the subscriber or TAG Mobile. However, TAG Mobile cannot guarantee that these practices will prevent every unauthorized attempt to access, use, or disclose personally identifiable information. Therefore:
  - A. If an unauthorized disclosure were to occur, TAG Mobile shall provide notification of the breach within seven (7) days to the United States Secret Service ("USSS") and the Federal Bureau of Investigation ("FBI").
  - B. TAG Mobile shall wait an additional seven (7) days from its government notice prior to notifying the affected customers of the breach.
  - C. Notwithstanding the provisions in subparagraph B above, TAG Mobile shall not wait the additional seven (7) days to notify its customers if TAG Mobile determines there is an immediate risk of irreparable harm to the customers.
  - D. TAG Mobile shall maintain records of discovered breaches for a period of at least two (2) years.
3. All employees will be trained as to when they are, and are not, authorized to use CPNI upon employment with the Company and annually thereafter.
  - A. Specifically, TAG Mobile shall prohibit its personnel from releasing CPNI based upon a customer-initiated telephone call except under the following three (3) circumstances:
    1. When the customer has pre-established a password.
    2. When the information requested by the customer is to be sent to the customer's address of record, or
    3. When TAG Mobile calls the customer's telephone number of record and discusses the information with the party initially identified by customer when service was initiated.

- A customer's approval or disapproval remains in effect until the customer revokes or limits such approval or disapproval.
  - Records of approvals are maintained for at least one year.
  - TAG Mobile provides individual notice to customers when soliciting approval to use, disclose, or permit access to CPNI.
  - The content of TAG Mobile's CPNI notices comply with FCC rule 64.2008 (c).
8. TAG Mobile has implemented a system to obtain approval and informed consent from its customers prior to the use of CPNI for marketing purposes. This system allows for the status of a customer's CPNI approval to be clearly established prior to the use of CPNI.
  9. TAG Mobile has a supervisory review process regarding compliance with the CPNI rules for outbound marketing situations and will maintain compliance records for at least one year. Specifically, TAG Mobile's sales personnel will obtain express approval of any proposed outbound marketing request for customer approval of the use of CPNI by The General Counsel of TAG Mobile.
  10. TAG Mobile notifies customers immediately of any account changes, including address of record, authentication, online account and password related changes.
  11. TAG Mobile may negotiate alternative authentication procedures for services that TAG Mobile provides to business customers that have a dedicated account representative and a contract that specifically addresses TAG Mobile's protection of CPNI.
  12. TAG Mobile is prepared to provide written notice within five business days to the FCC of any instance where the opt-in mechanisms do not work properly to such a degree that consumer's inability to opt-in is more than an anomaly.
